Brain Research Bulletin

Founded by MATTHEW J. WAYNER

Editor-in-Chief:
STEPHEN B. DUNNETT
School of Biosciences, Cardiff University
Biomedical Science Building, Museum Avenue
PO Box 911, Cardiff CF1 3US
Wales, UK

Section Editors

Cellular and Molecular Neurobiology
Iaìa S. Zagon, Department of Neuroscience and Anatomy, M.S. Hershey Medical Center, 500 University Drive, Hershey, PA 17033, USA

Cognition and Behaviour
Stephen B. Dunnett, MRC Cambridge Centre for Brain Repair, University of Cambridge Forvie Site, Robinson Way, Cambridge CB2 2PY, UK

Development and Regeneration
Andrew D. McClellan, Division of Biological Science, 105 Lefevre Hall, University of Missouri, Columbia, MO 65211-6190, USA

Functional and Molecular Neuroanatomy, and Experimental Neuropathology
Marina Bentivoglio, Department of Morphological and Biomedical Sciences, Section of Anatomy and Histology, Medical Faculty, University of Verona, Strada Le Grazie 8, 37134 Verona, ITALY

Neuropharmacology and Neuroendocrinology
E. Sylvester Vizi, Institute of Experimental Medicine, Hungarian Academy of Sciences, H-1450 Budapest, P.O.B. 67, HUNGARY

Neurophysiology and Computational Neuroscience
Adonis Moschovakis, Institute of Applied and Computational Mathematics, F.O.R.T.H., P.O. Box 1527, Heraklion, 71110, Crete, GREECE

Normal and Pathological Human Brain Function
Pietro Pietrini, Institute of Medical Biochemistry, Medical School, University of Pisa, Via Roma, 55, I-56126 Pisa, ITALY

Editorial Advisory Board

E. ABERCROMBIE, Rutgers University, Newark, NJ
J. AGGLETON, University of Wales, Cardiff, Wales
C. ASANUMA, National Institute of Health Animal Center, Poolesville, MD
A. BJÖRKLUND, University of Lund, Lund, Sweden
E. BUHL, University of Leeds, Leeds, UK
A. H. BURKHALTER, Washington University Medical School, St. Louis, MO
I. CREESE, Rutgers University, Newark, NJ
R. DRUCKER-COLIN, Universidad Nacional Autonoma De Mexico, Mexico City, Mexico
H. C. FIBIGER, University of British Columbia, Vancouver, Canada
F. H. GAGE, University of California at San Diego, La Jolla, CA
A. P. GEORGOPOULOS, University of Minnesota Medical School, Minneapolis, MN
B. GHETTI, Indiana University School of Medicine, Indianapolis, IN
S. R. GOODMAN, University of South Alabama, Mobile, AL
A. GRANTYN, CNRS Lab de Physiologie Neurosensorielle, Paris, France
H. J. GROENEWEGEN, Vrije Universiteit, Amsterdam, The Netherlands
M. HASTINGS, University of Cambridge, Cambridge, UK
A. R. HARVEY, University of Western Australia, Perth, Australia
M. A. HERKENHAM, National Institute of Mental Health, Bethesda, MD
T. KANEKO, Kyoto University, Kyoto, Japan
B. E. KOLB, University of Lethbridge, Alberta, Canada
J. H. KORDOWER, Rush Presbyterian Medical Center, Chicago, IL
G. K. KOSTOPOULOS, University of Patras Medical School, Patras, Greece
K. S. KRISTENSSON, Karolinska Institute, Stockholm, Sweden
G. KUNOS, Virginia Commonwealth University, Richmond, VA
J. Y. KUWADA, University of Michigan, Ann Arbor, MI
L. LÉNÁRD, University Medical School, Pecs, Hungary
A. A. LEV-TOV, Hebrew University Medical School, Jerusalem, Israel
B. LICHARDUS, Slovak Academy of Sciences, Bratilava, Slovakia
G. B. MAKARA, Hungarian Academy of Sciences, Budapest, Hungary
P. J. McLAUGHLIN, M.S. Hershey Medical Center, Hershey, PA
R. D. MYERS, East Carolina University, Greenville, NC
M. J. O'DONOVAN, NINDS/NIH, Bethesda, MD
M. L. OSTER-GRANITE, National Institute of Child Health & Human Development, Bethesda, MD
M. PETRIDES, McGill University, Montreal, Canada
C. R. PLATA-SALAMÁN, The R.W. Johnson Pharmaceutical Research Institute, Spring House, PA
R. RÜEBSAMEN, University of Leipzig, Leipzig, Germany
P. R. SANBERG, University of South Florida, Tampa, FL
I. SEGEV, Hebrew University, Jerusalem, Israel
H. SERSHEN, Center for Neurochemistry, Orangeburg, NY
T. SLOTKIN, Duke University Medical Center, Durham, NC
L. R. SQUIRE, Veterans Administration Medical Center, San Diego, CA
J. D. STEEVES, University of British Columbia, Vancouver, Canada
L. SWANSON, University of Southern California, Los Angeles, CA
R. WEINBERG, University of North Carolina at Chapel Hill, Chapel Hill, NC
P. WINN, University of St. Andrews, Fife, UK

BRAIN RESEARCH BULLETIN

Publishing Office:
Elsevier Science Inc., 655 Avenue of the Americas, New York, NY, 10010-5107, USA, E-mail Address: ESUK.USA@ELSEVIER.COM
Subscription and Advertising Office:
Elsevier Science Inc., 655 Avenue of the Americas, New York, NY 10010-5107, USA

Published 18 per annum (monthly with 2 issues published in January, March, May, July, September, and November).

Annual Institutional Subscription Rate (2000): For customers in Europe, The CIS and Japan: Institutional rate: NLG 5050.00. Personal rate: NLG 858.00. For customers in all other countries: Institutional rate: US$2563.00 Personal rate: US$436.00. Prices include postage and are subject to change without notice. For orders, claims, product enquiries (no manuscript enquiries) please contact the Customer Support Department at the Regional Sales Office nearest to you: New York: Elsevier Science, P.O. Box 945, New York, NY 10010. Tel: (212) 633-3730. Toll Free (for customers in North America): 1-888-4ES-INFO, Fax: (212) 633-3680, E-mail: usinfo-f@elsevier.com. Amsterdam: Elsevier Science, P.O. Box 211, 1000 AE Amsterdam, The Netherlands, Tel: (+31) 20-485-3757, Fax: (+31) 20-485-3432, E-mail: nlinfo-f@elsevier.nl. Tokyo: Elsevier Science, 9-15, Higashi-Azabu 1-chome, Minato-ku, Tokyo 106, Japan, Tel: (+81) 3-5561-5033, Fax: (+81) 3- 5561-5047, E-mail: kyf04035@niftyserve.or.jp. Singapore: Elsevier Science, No 1 Temasek Avenue, #17-01 Millenia Tower, Singapore 039192, Tel: (+65) 434-3727, Fax: (+65) 337-2230, E-mail: asiainf@elsevier.com.sg.

North and South America: Please direct inquiries regarding the placement of advertising in this journal to Jay Allan Feinman, Advertising Sales Dept., Elsevier Science Inc. 655 Avenue of the Americas, New York, NY 10010-5107. Tel: (212) 633-3689 Fax: (212) 633-3820 E-Mail: J. Feinman@Elsevier.com. International: Advertising Dept., Elsevier Science, The Boulevard, Langford Lane, Kidlington, Oxford, OX5 1GB United Kingdom. Tel: (144)(0)1865 843565; Fax: (81)(3)1865 843976; e-mail: media@elsevier.co.uk Japan: Advertising Dept., Elsevier Science Japan. Tel: (81)(3)5561 5033; Fax: (81)(3)5561-5047. Rio de Janeiro: Elsevier Science, Rua Sete de Setembro 111/16 Andar, 20050-002 Centro, Rio de Janeiro-RJ, Brazil; Tel: (+55) 21-509-5340, Fax: (+55) 21-507-1991, E-mail: elsevier@campus.com.br [Note (Latin America): for orders, claims and help desk information, please contact the Regional Sales Office in New York as listed above].

Please direct inquiries regarding reprints of 100 or less to the author. Requests for quantities of more than 100 copies should be directed to Anne Rosenthal, Commercial Reprints Dept., Elsevier Science Inc., 655 Avenue of the Americas, New York, NY 10010-5107. Tel: (212) 633-3813 Fax: (212) 633-3820.

Brain Research Bulletin is an official journal of the International Behavioral Neuroscience Society. For information about the society, please contact: Marianne Van Wagner, IBNS Central Office, Division of Life Sciences, The University of Texas @ San Antonio, 6900 North Loop 1604 West, San Antonio, TX 78249-0662, USA. Members of the International Behavioral Neuroscience Society may order personal subscriptions at a concessional rate; details of this rate are available upon request.

ELSEVIER

CONTENTS
VOLUME 51, 2000

Editorial

Dunnett, S. B. 1

Review Articles

Cytokine–cytokine interactions and the brain.
Turrin, N. P., and C. R. Plata-Salamán 3

Recent techniques for tracing pathways in the central nervous system of developing and adult mammals.
Vercelli, A., M. Repici, D. Garbossa, and A. Grimaldi 11

Articles

Autoregulation of the interleukin-1 system and cytokine–cytokine interactions in primary human astrocytoma cells.
Ilyin, S. E., I. González-Gómez, A. Romanovicht, D. Gayle, F. H. Gilles, and C. R. Plata-Salamán 29

Growth factor effects on survival and development of calbindin immunopositive cultured septal neurons.
Silva, A., J. R. Montague, T. F. Lopez, and L. M. Mudd 35

A role of nitric oxide as an inhibitor of γ-aminobutyric acid transaminase in rat brain.
Paul, V., and A. R. Jayakumar 43

Immunohistochemical estimation of rat brain somatostatin on avoidance learning impairment induced by thiamine deficiency.
Nakagawasai, O., T. Tadano, F. Niijima, K. Tan-No, and K. Kisara 47

Cholesterol and triglyceride levels in the serum of muricidal male Wistar rats: Indices of mitochondrial benzodiazepine receptors?
Miachon, S., M. Jouvenet, and J. J. Vallon 57

Regional distribution of gonadotropin-releasing hormone-like, β-endorphin-like, and methionine-enkephalin-like immunoreactivities in the central nervous system of the goat.
Karuri, A. R., S. Ayres, and M. S. A. Kumar 63

Differential paired-pulse effects of gabazine and bicuculline in rat hippocampal CA3 area.
Margineanu, D. G., and E. Wülfert 69

Activation of 5-$HT_{2A/2C}$ receptors within the nucleus accumbens increases local dopaminergic transmission.
Yan, Q.-S. 75

Nicotine attenuates stress-induced changes in plasma amino acid concentrations and locomotor activity in rats.
Minowa, K., R. Pawlak, Y. Takada, and A. Takada 83

Altered sensitivity of dopamine autoreceptors in rat accumbens 1 and 7 days after intermittent or continuous cocaine withdrawal.
Davidson, C., E. H. Ellinwood, and T. H. Lee 89

Azimuthal directional sensitivity of prepulse inhibition of the pinna startle reflex in decerebrate rats.
Li, L., and B. J. Frost 95

CONTENTS VOLUME 51 NUMBER 2 JANUARY 15, 2000

Special Section: Proceedings of the Experimental Biology '98 Symposium: "Neurochemical and Peptide Pathways of the Baroreflex Arc in the Medulla Oblongata"

Guest Editor: David B. Averill

Editorial

Brain Research Bulletin **special section on the proceedings of the *Neurochemical and Peptidergic Pathways of the Baroreflex Arc in the Medulla Oblongata* symposium.**
Averill, D. B. 101

Neurochemical and peptidergic pathways of the baroreflex arc in the medulla oblongata: An introduction.
Averill, D. B. 103

Anatomical substrates for baroreflex sympathoinhibition in the rat.
Aicher, S. A., T. A. Milner, V. M. Pickel, and D. J. Reis 107

Neurochemical transmission of baroreceptor input in the nucleus tractus solitarius.
Seagard, J. L., C. Dean, and F. A. Hopp 111

Angiotensin peptides and baroreflex control of sympathetic outflow: Pathways and mechanisms of the medulla oblongata.
Averill, D. B., and D. I. Diz 119

Baroreflex dependent and independent roles of the caudal ventrolateral medulla in cardiovascular regulation.
Sved, A. F., S. Ito, and C. J. Madden 129

Superior laryngeal neurons directly excite cardiac vagal neurons within the nucleus ambiguus.
Mendelowitz, D. 135

Computational modeling of the baroreflex arc: Nucleus tractus solitarius.
Rogers, R. F., I. A. Rybak, and J. S. Schwaber 139

Articles

Intra-medial prefrontal cortex injections of scopolamine increase instrumental responses for cocaine: An intravenous self-administration study in rats.
Ikemoto, S., and N. E. Goeders 151

Electrical interaction between neurons in the pigeon isthmo-optic nucleus.
Hu, J., W.-C. Li, Q. Xiao, and S.-R. Wang 159

Feature detection of visual neurons in the nucleus of the basal optic root in pigeons.
Wang, Y., Y. Gu, and S.-R. Wang 165

Distribution of prolactin-releasing peptide mRNA in the rat brain.
Lee, Y., S.-P. Yang, M. J. Soares, and J. L. Voogt 171

Lateral parabrachial nucleus lesions in the rat: Long- and short-duration gustatory preference tests.
Reilly, S., and R. Trifunovic 177

Neither acute nor chronic exposure to a naturalistic (predator) stressor influences the interleukin-1β system, tumor necrosis factor-α, transforming growth factor-β1, and neuropeptide mRNAs in specific brain regions.
Plata-Salamán, C. R., S. E. Ilyin, N. P. Turrin, D. Gayle, M. C. Flynn, T. Bedard, Z. Merali, and H. Anisman 187

Articles

Gene transfer into hippocampal slice cultures with an adenovirus vector driven by cytomegalovirus promoter: Stable co-expression of green fluorescent protein and lacZ genes.
Miyaguchi, K., Y. Maeda, C. Collin, and R. K. Sihag 195

Co-grafts of muscle cells and mesencephalic tissue into hemiparkinsonian rats: Behavioral and histochemical effects.
Kaddis, F. G., E. D. Clarkson, K. P. Bell, P. K. Choi, and C. R. Freed 203

Cholinergic enhancement improves performance on working memory by modulating the functional activity in distinct brain regions: A positron emission tomography regional cerebral blood flow study in healthy humans.
Furey, M. L., P. Pietrini, G. E. Alexander, M. B. Schapiro, and B. Horwitz 213

Efferent connections of the anterior hypothalamic nucleus: A biocytin study in the cat.
Kanemaru, H., H. Nakamura, H. Isayama, M. Kawabuchi, and N. Tashiro 219

Cellular electrophysiological changes in the hippocampus of freely behaving rats during local microdialysis with epileptogenic concentration of N-methyl-D-aspartate.
Ludvig, N., and H. M. Tang 233

Anticonvulsive effect of AMPA receptor antagonist GYKI 52466 on 4-aminopyridine-induced cortical ictal activity in rat.
Barna, B., A. Szász, I. Világi, and M. Szente 241

Individual variability of dopamine release from nucleus accumbens induced by nicotine.
Johnson, J. H., C. Zhao, J. R. James, and J. A. Rosecrans 249

Dendritic organization of neurons of the superior colliculus in animals with different visual capability.
Hilbig, H., M. Merbach, J. Krause, U. Gärtner, and A. Stubbe 255

Prenatal morphine exposure differentially alters TH-immunoreactivity in the stress-sensitive brain circuitry of adult male and female rats.
Vathy, I., H.-J. He, M. Iodice, O. C. Hnatczuk, and A. Rimanóczy 267

Intraventricular 2-deoxy-D-glucose induces Fos expression by hypothalamic vasopressin, but not oxytocin neurons.
Briski, K. P. 275

CONTENTS VOLUME 51 NUMBER 4 MARCH 1, 2000

Articles

Distribution of luteinizing hormone-releasing hormone in the upper brainstem and diencephalon of the cat: An immunocytochemical study.
Belda, M., R. Coveñas, J. A. Narváez, J. A. Aguirre, and G. Tramu 281

A multielectrode array for intrafascicular recording and stimulation in sciatic nerve of cats.
Branner, A., and R. A. Normann 293

A cautionary note: The actions of adenosine agonists and antagonists may be reversed under certain conditions in primary cultures.
Brooke, S. M., and R. M. Sapolsky 307

***In vivo* electron spin resonance spectroscopy on signal decay of intrastriatal nitroxide radical after acute administration of haloperidol in rats.**
Ueda, Y., H. Yokoyama, A. Nakajima, H. Ohya-Nishiguchi, and H. Kamada 313

Hippocampal norepinephrine-like voltammetric responses following infusion of corticotropin-releasing factor into the locus coeruleus.
Palamarchouk, V. S., J.-J. Zhang, G. Zhou, A. H. Swiergiel, and A. J. Dunn 319

Increase in plasma adenosine during brain ischemia in man: A study during transient ischemic attacks, and stroke.
Laghi Pasini, F., F. Guideri, E. Picano, G. Parenti, C. Petersen, A. Varga, and T. Di Perri 327

Age and insulin-like growth factor-1 modulate N-methyl-D-aspartate receptor subtype expression in rats.
Sonntag, W. E., S. A. Bennett, A. S. Khan, P. L. Thornton, X. Xu, R. L. Ingram, and J. K. Brunso-Bechtold 331

Brain AT_2 receptor mediate vasodepressor response to footshocks: Role of kinins and nitric oxide.
Israel, A., B. Sosa, and C. I. Gutierez 339

Sodium overload through voltage-dependent Na^+ channels induces necrosis and apoptosis of rat superior cervical ganglion cells *in vitro*.
Koike, T., S. Tanaka, T. Oda, and T. Ninomiya 345

Resolution of two [^{35}S]GTP-γ-S binding sites and their response to chronic morphine treatment: A binding surface analysis.
Heyliger, S. O., Q. Ni, and R. B. Rothman 357

CONTENTS VOLUME 51 NUMBER 5 MARCH 15, 2000

Review Article

Cellular mechanisms of CNS pericytes.
Rucker, H. K., H. J. Wynder, and W. E. Thomas 363

Articles

Enhancing effect of electric stimulation on cytotoxicity of anticancer agents against rat and human glioma cells.
Horikoshi, T., H. Naganuma, Y. Ohashi, T. Ueno, and H. Nukui 371

Distribution of neurons immunoreactive for calcium-binding proteins varies across areas of cat primary somatosensory cortex.
Schwark, H. D., and J. Li 379

Serotonergic modulation of the P13 midlatency auditory evoked potential in the rat.
Miyazato, H., R. D. Skinner, T. Crews, K. Williams, and E. Garcia-Rill 387

A reduced compartmental model of the mitral cell for use in network models of the olfactory bulb.
Davison, A. P., J. Feng, and D. Brown 393

Nitric oxide modulates release of noradrenaline in guinea-pig gastric fundus.
Sotirov, E., and M. Papasova 401

Effects of metabolic fragments of [Arg^8]-vasopressin on nerve growth in cultured hippocampal neurons.
Tarumi, T., Y. Sugimoto, Z. Chen, Q. Zhao, and C. Kamei 407

The effect on opioid peptides in the rat brain, after chronic treatment with the anabolic androgenic steroid, nandrolone decanoate.
Johansson, P., M. Hallberg, A. Kindlundh, and F. Nyberg 413

Repeated prenatal cocaine increases met-enkephalin immunoreactivity in respiratory-related medulla of developing swine.
Liu, J.-K., A. Laferrière, and I. R. Moss 419

ACTH- and α-MSH-induced grooming, stretching, yawning and penile erection in male rats: Site of action in the brain and role of melanocortin receptors.
Argiolas, A., M. R. Melis, S. Murgia, and H. B. Schiöth 425

Multiple substrates for serotonergic modulation of rat locus coeruleus neurons and relationships with kainate receptors.
Van Bockstaele, E. J. 433

CONTENTS VOLUME 51 NUMBER 6 APRIL 2000

Review Article

The specificity of stress responses to different nocuous stimuli: Neurosteroids and depression.
Dubrovsky, B. 443

Articles

Behavioral and *c-fos* expression changes induced by nitric oxide donors microinjected into the dorsal periaqueductal gray.
de Oliveira, R. W., E. A. Del Bel, and F. S. Guimarães 457

Carbachol blocks β-amyloid fragment 31–35-induced apoptosis in cultured cortical neurons.
Yan, X.-Z., R. Xiao, Y. Dou, S.-D. Wang, Z.-D. Qiao, and J.-T. Qiao 465

Modulation of carbachol-induced antinociception from the rat periaqueductal gray.
Guimarães, A. P. C., F. S. Guimarães, and W. A. Prado 471

***In vitro* expression of tyrosine hydroxylase by a subpopulation of rat melanotrophs is down-regulated by dopamine.**
Niquet, J., and J.-L. Charli 479

MK-801 blocks the development of sensitization to the locomotor effects of methylphenidate.
Gaytan, O., R. Nason, R. Alagugurusamy, A. Swann, and N. Dafney 485

GABA enhances short wavelength-sensitive cone input and reduces red cone input to carp L-type horizontal cells.
Xu, H.-P., and X.-L. Yang 493

Cellular localization of serotonin$_{2A}$ (5HT$_{2A}$) receptors in the rat brain.
Xu, T., and S. C. Pandey 499

A comparison of the effects of nicotine on dopamine and non-dopamine neurons in the rat ventral tegmental area: An *in vitro* electrophysiological study.
Yin, R., and E. D. French 507

Effects of food restriction on the hypothalamic *prepro-orexin* gene expression in genetically obese mice.
Yamamoto, Y., Y. Ueta, R. Serino, M. Nomura, I. Shibuya, and H. Yamashita 515
